

Position Statement — Jamal Matter

This Position Statement is submitted as the final position of the filing party in the above-referenced matter. It supersedes all prior drafts and summarizes the factual record and procedural posture as of the date of filing.

I. Procedural Background

The parties have conducted discovery and related investigative work in this matter, including custodian identification and interview processes for Sable Ridge. The Sable Ridge custodian list has been aligned among the parties, interviews have proceeded, and no blockers or outstanding items remain with respect to that workstream as of the date of this filing.

II. Jamal Confirmation Issue

The parties previously identified an open question concerning the read-aloud confirmation associated with Jamal's statement. That issue has been reviewed against the record and is resolved as a factual finding for purposes of this filing: the confirmation as read into the record accurately reflects Jamal's statement, and no further clarification or amendment is required.

III. Statement of Position

Based on the record as developed, the filing party's position is as follows: the underlying facts material to this dispute are not reasonably subject to further dispute on the points addressed herein, and the record supports the conclusions set forth above. See record.

IV. Conclusion

For the foregoing reasons, the filing party respectfully submits this Position Statement as final and ready for filing. This document reflects the resolved status of all previously flagged items, including the Sable Ridge custodian list closure and the Jamal read-aloud confirmation finding, and is submitted without reservation as to any outstanding item.
